

THE COCONINO SUN.

The fire company under the new chief, E. S. Clark, brings out the engine for practice Tuesday nights. This is a good idea and it should be kept up the year around. The value of a fire brigade is shown in its efficiency at a fire.

Clarence Young and Robt. Somerville, two painters and decorators well known, in Arizona, have decided to locate here and they call the attention of our citizens to the fact they are ready to do all work in their line in a first-class manner.

W. R. Johnson, missionary to the Moqui reservation, was in town this week and took out to the reservation three missionaries from the east. The conversion of the Moqui to the Christian religion is an up hill work, as he believes that he has a pretty good religion of his own.

Deputy Sheriff Fletcher Fairchild and M. T. Black left Wednesday for the Little Colorado river to assess the bands of sheep belonging to the Navajo Indians that range in Coconino county. The Indians will probably make all haste to reach the reservation when they learn of the object of the deputies.

Graham county was the scene recently of another startling holdup. Four men believed to be members of Black Jack's ubiquitous band, held fifteen men employed on J. Hampson's ranch up against a fence and then helped themselves to several fine horses and enough provisions to last some time. As a result of this the Southern Pacific company is looking for another train holdup in the vicinity of Benson.

Master Mechanic Pullar tendered his resignation to the Santa Fe Pacific company last Saturday. Mr. Pullar has held the position of master mechanic at this point for a great many years, and is universally respected and

esteemed by our citizens for his many generous and noble qualities. We understand he contemplates taking a trip into old Mexico. Mrs. Pullar will go to Los Angeles and remain until her husband selects a location to settle. Their departure is sincerely regretted and will prove a grievous loss to the social circle of Winslow.—Mail.

Col. R. B. Stanton, who several years ago surveyed the Grand Canyon of the Colorado for a railroad, line is in Flagstaff with a party of surveyors and will leave for Lee Ferry, which point, will be his headquarters. Col. Stanton is very reticent as to the object of his trip. But inasmuch as he is expecting a couple of row boats and a steam launch it is supposed that it is his intention to make another survey of the Grand Canyon, for a railroad, a project in which he is much interested and which he believes is feasible. However, as Col. Stanton does not say anything about his purpose, the reporter has only made a guess, and wishes him success in whatever he undertakes.

No More Small Pox Cases.

The quarantine against Bellemont, on account of small pox at that place, was raised Tuesday by Dr. D. J. Brannen, deputy Territorial health officer. The small pox patients have recovered, and the hospital there has been destroyed. Dr. Brannen is to be congratulated for his prompt manner in dealing with this dread disease, as his action confined it to Bellemont and prevented it from being carried to neighboring towns.

Ladies calling cards, in the correct styles, printed in the latest copper-plate script at this office.

BORN.

KENDRICK.—On March 8, 1888, to the wife of Fred Kendrick, a son.
